

HeART Impression

show offer

ARTur Moon

Pianist, composer and improviser of the young generation, ARTur is the winner of many prestigious piano competitions.

A versatile artist balancing between both classical and improvised music, ARTur shows a surprising way of experimenting with the sounds of the piano, stimulating the imagination and opening the listener's soul and mind to his art.

The idea that guides the work of ARTur is the 'Impression of the Heart' – the belief that real music is formed primarily from intuition and heart. For this exceptional artist, his instrument becomes the entire spectrum of colours and energy as an extension of his mind and imagination.

Music stimulates imagination; delicately, through elusive sound, it opens up the mind and the soul of the arts. ARTur intuitively adjusts the quality of sound of the piano and plays the music that comes from his heart as he directs the **HeART Impression** live performance.
